

Prepared by the Defense Mapping Agency Topographic Center, Washington, D. C. Compiled in 1954 by photogrammetric methods and from 1:62,500-scale maps dated 1935-54. Map field checked 1953. Revised by the U. S. Geological Survey from aerial photographs taken 1978 and other source data. Revised information not field checked. Map dated 1979.

Transverse Mercator Projection; 10,000-meter Universal Transverse Mercator grid, zone 18. 100,000-foot grid ticks based on Mississippi coordinate system, west zone and Arkansas coordinate system, south zone, 1927 North American datum. To place on the predicted North American Datum of 1983 move the projection lines 10 meters south and 10 meters east.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
