

Prepared by the Defense Mapping Agency Topographic Center Washington, D.C. Compiled in 1955 by photogrammetric methods and from United States quadrangles, 1:62,500, 1:50,000. Planimetry revised in part from aerial photographs taken 1939-51. Map field checked 1955. Revised by the U.S. Geological Survey from aerial photographs taken 1976. Map edited 1977.

Transverse Mercator projection. 10,000-meter Universal Transverse Mercator grid zones 14 and 15. 100,000-foot grid based on Texas coordinate system north central zone. 1927 North American Datum. The difference between 1927 North American Datum and North American Datum of 1983 (NAD 83) for 7.5 minute intersections is given in USGS Bulletin 1875.

Location of geoid control established by government agencies is shown on corresponding 1:250,000-scale Geographic Coordinate Diagrams.

Areas covered by dashed light-blue pattern are subject to controlled inundation.
